

PLUCKING BILLS THROUGH SENATE

Upper House Buried Beneath Mass of Bills.

MAY FINISH UP TODAY

SCORE OF MEASURES WERE PASSED YESTERDAY.

The senate buckled down to business in fairly good style yesterday. More than thirty bills were passed in the three sessions and the sine die adjournment is much closer. It is thought by most of the senators that the tables will be cleared tonight. Much will depend, though, on the action of the sitting committee, which has something like 100 bills before it for consideration in advance of this morning's session.

There was some debate yesterday, but the talking fever wasn't nearly as pronounced as it has been on former days. Even the senators seem to have talked themselves out and most of the business was transacted with commendable promptness. Probably the most important piece of legislation was the passage of the house bill appropriating \$45,000 for roads and bridges. This got through in the afternoon, after a sharp fight.

The general appropriation bill will probably occupy most of the session this afternoon and it may be well along in the night before a final agreement on it is reached.

One hour of gab-fest and two minutes of work characterized the morning session of the senate. So garrulous were several of the members that Senator Howell, who is anxious to get back to Wells-fair on the banks of the Little Bear, felt called on to protest. "We'll never get through unless we stop talking and do some work," he said. "Every member of the senate has made up his mind how he is going to vote on the bills now before us and nothing is to be gained by arguing them."

Sitting Committee Reports.
The first work was the receiving of a report from the sitting committee. This body recommended the passage of the following bills:

Senate bill 45, authorizing the establishment of a department of domestic science at the state university; senate bill 120, requiring railroad companies to fence their tracks; senate bill 121, requiring the state board of examiners to publish the session laws and contract for other printing; senate bill 76, to forbid the use of injurious chemicals in milk and cream; senate bill 116, to prohibit slot machines; senate bill 123, requiring persons holding juror and witness scrip issued under territorial laws to present it before September, 1902, to the state board of examiners; a substitute for house bill 124, providing for the collection of taxes from companies; house bill 123, making an appropriation to the governor for the purchase of postage stamps; house bill 124, authorizing the secretary of the state board of equalization to collect railroad, telephone and telegraph taxes, and distribute same among the different counties.

House bill 125, relating to the publication of county financial statements and tax lists; house bills 115 and 116, to provide for the annexation of San Juan to Grand county; house bill 127, relating to the marking of deer selves in packages; house bill 128, to prohibit the use of county commissioners; house bill 129, forbidding the manufacture and sale of slot machines; house bill 23, relating to prison library fund; house joint resolution 4, returning to the state board of examiners citizens that added the Scofield sufferers.

Senate bill 45, the domestic science measure, was killed because the senate considered it unnecessary in view of the fact that the appropriation bill contains an appropriation for the establishment of this department at the university.

Senate bill 76, forbidding the use of formaldehyde in cream or milk was passed. Barnes' being the only vote against it.

Railroad Fence Bill.
Senate bill 120, providing that railroad companies shall maintain fences along their rights of way, was also passed, after Larson had inserted an amendment making the killing of stock by a railroad prima facie evidence of negligence on the part of the company.

Road and Bridge Bill.
The feature of yesterday afternoon in the senate was the consideration and passage of the house bill appropriating \$45,000 for roads and bridges throughout the state. The debate was warm from start to finish and it looked once as if the bill would be killed.

Love started the ball by moving the insertion of a \$5,000 appropriation to be expended on the state road running to the point of the mountain near Garfield beach. He explained that this road was more traveled than any in the state and insisted that Salt Lake, which had only been allotted \$1,000, was not getting its fair share of the appropriations. The \$5,000 was inserted.

Barnes asked for \$500 more for Davis county, but was turned down. Kiesel chimed in with a request that Weber's \$2,500 appropriation be made \$5,000 and got it through. President Evans was successful in raising Utah county's share by \$800. Then Lawrence could restrain himself no longer.

"This is a regular river and harbor bill," said he, "and if I had sufficient strength I would emulate Seneca's character and talk it to death. I move that we cut down every item 25 per cent."

There was no need of any more motion, but Barnes' heart was touched. He asked that Utah county's \$100 appropriation be lifted off and the request was granted.

Salt Lake Cut Out.
Tanner didn't like the idea of Salt Lake getting this extra \$5,000. He threatened the senators with a caucus of the Altaifa club unless the vote by which this item was put in was reconsidered. Love protested vigorously, but the vote was reconsidered and the \$5,000 lopped off. Then Weber county was cut back to \$2,500 and an effort was made to let Utah county down. But President Evans took the floor and made a vigorous speech against the proposition, with the result that Utah was let alone.

Love now asked for an appropriation of \$5,000 for the road between Murray and the point of the mountain, but couldn't muster enough votes. Next he asked that the \$1,000 already allotted to Salt Lake be eliminated, but even this request was refused. The bill, however, was passed.

At the opening of the afternoon session the sitting committee reported favorably on a bundle of house bills and senate bill 128 was taken up. It provides that persons holding juror and witness scrip issued in territorial days must present it to the state board of examiners before Sept. 1, 1902, or be barred from payment. This is preliminary to squaring up a long-standing indebtedness. Howell objected to the bill on the ground that previous legislatures had refused to allow the claim. Kiesel made a talk for it and it was passed.

Here, apropos of nothing in particular, Larsen moved that therefore no motion to reconsider be entertained. This brought out a storm of disapproval.

AFTER OLYMPIAN GAMES

CHICAGO WANTS TO SECURE THEM IN 1904.

Committee in Charge of Movement Decides First to Raise One Hundred Thousand Dollars.

Chicago, March 15.—The committee in charge of the movement to bring the Olympian games to Chicago in 1904 has decided that the first step in that direction must be the raising of \$100,000, which is half the estimated expense of the undertaking. Nothing further will be done in the matter until that sum is assured. It is believed that it can be secured from four of the interests which will be chiefly benefited financially by the games, the members of which are the railroads which center here, the surface and elevated roads, the hotels and the large business houses of Chicago.

As soon as the entire sum is pledged steps will be taken toward securing the games, but not until then, as the committee wants the money in sight before committing itself in any way. It is proposed to raise the remainder of the required \$200,000 by private or public subscription.

MILWAUKEE PLAYERS.
Ban Johnson Makes Official Announcement of Line-up.

Chicago, March 15.—President Ban Johnson of the American Baseball league today made official announcement of the line-up of the Milwaukee team for the coming season. It is as follows:

Connor and Leahy, catchers; Sparks, Reedy, Garvin, Dowling, Hustling and Keitger, pitchers; Anderson, first base; two batsmen, second base; Connor, shortstop; Burke, third base; Hallman, left field; Duffy, center field; Waldron, right field.

President Johnson also announced that Cantillon and Haskell had already signed contracts as umpires and it is expected that Sheridan and Man-nassau will complete the force.

ANNUAL TOURNAMENT.
Number of Inquiries Received from Outside Shooters.

Interest in the coming annual tournament of the Salt Lake Gun club, which will be held in this city on the 27th and 28th of the present month, is daily increasing and a number of inquiries are being received by the committee in charge.

J. F. Cowan has just arrived from Butte, and states that a number of the best marksmen in the west are expected to take part. Word has been received from Mr. and Mrs. Bennett of Pueblo, Colorado, that they will be here without fail and they expect more shooters from that section of the country.

One of the local dealers reported yesterday that he had been offered more than 5,000 shells at the present time to be used during this meet.

Y. M. C. A. BASEBALL.
Line-up of the Team That Will Represent Association.

Physical Director Augustus of the Y. M. C. A., who has been looking quietly for some time upon the organization of a Y. M. C. A. baseball club, announced last evening that he has secured some good material for the line-up of that practice work will begin shortly. The club will endeavor to enter the local school league if such an organization is effected, and if not will play any of the amateur teams in the city.

The players selected at present are Everett and Mark behind the bat and Brown and Smith in the field. Sibley is scheduled for first and Tregea for second and third. Harry Ortler, last season's pitcher, will be in the line-up, but for short. In the field there are four candidates: Ab. Howells, Rasmussen, Thomas and Jones. The latter two are above line-up the Christians will have a strong team and should hold up their end in the amateur league.

BASEBALL MUDDLE.
Fans Wonder Who Will Capture McCausland.

Although the local baseball season is not yet opened trouble is already brewing for the managers. Some time ago Jack Melneke announced he had secured McCausland of the city of Portland, Ore., to play for the Park team. Yesterday Earl Riebel stated that this McCausland had signed a contract to play ball for his all-star team. Chippenger has not heard of the contract, but will probably flash a telegram today, showing that McCausland is already on the way to play with him. The Park team is a state league having iron clad rules governing this kind of a case is now apparent and the first one is formed the better for all concerned.

DAVIS IN TOWN.
Owner of Famous Duck Camp Visits Salt Lake.

Vince Davis, until recently owner of the Davis duck camp at the mouth of Bear river, was in the city yesterday. Mr. Davis verified the report of the sale of this famous hunting resort, but he will continue to manage the place during the present season. It is understood that a proposition has been made by Mr. Davis to the present owners of the place to remain with them, but he fully decided what he will do in the latter. In speaking of the hunting in that vicinity the present season, Mr. Davis said that there are more ducks, especially canvas backs, and geese than ever before. The season is open and the shooting is remarkably fine and every hunter who has visited the place this spring claims to be more than satisfied with the result.

Tom Jenkins Issues Def.
Cleveland, O., March 15.—George Tuohy, manager of Tom Jenkins, the world's champion catch-as-catch-can wrestler, today issued a challenge to wrestle any man in the world, man or woman, especially Neuralah, the newly arrived Turk; Paul Pons, the Frenchman, and Charley Wittmer of Cincinnati. Jenkins is matched to meet Rooney, the "Gilded Gripman," here March 26, and has accepted the terms offered by the West End Coliseum of St. Louis in a finish contest with Ernest Roeder. A local promoter will offer a good purse for Pons and Jenkins.

Ball Players Fined.
Fort Wayne, Ind., March 15.—The court of Dayton and Fort Wayne baseball players, who last season were fined 1 cent and costs in Justice Butterman's court for playing ball on Sunday, were heard on appeal by Judge O'Rourke of the circuit court today and fines of \$5 and costs imposed, amounting to \$200 in all. In the first trial Justice Butterman remitted the costs. Judge O'Rourke criticized Justice Butterman for imposing such a small fine, saying the action was a disgrace to the laws and dignity of the state.

Junior Basket Ball.
Two more basket ball games were played by the teams of the junior league yesterday afternoon. The L. D. S. were too fast for the Lowell boys and defeated them by a score of 16 to 1. The Y. M. C. A. showed considerable improvement in their game against the Hamiltons and won by a score of 19 to 5. Another contest was scheduled between the Fremonts and Salt Lake Scorchers, but the latter team quit at the end of the first half with a score of 14 to 2 against them. The Fremonts want another game, but the Scorchers are not willing to play again.

Day's Outing for Athletes.
The athletic class of the Y. M. C. A., under the direction of Instructor C. H. T. today, will make a trip up City Creek canyon today, leaving their gymnasium at 9:30 a. m. The morning is for a day's outing and it is expected that all

the world's running, jumping, shot putting and hammer throwing records will be broken before evening and in case of doubt of the accuracy of these records they can be easily established by the boys themselves.

NOT SMITH, THE SHEEPMAN
WHO WANTED TO BUY CITY PROPERTY.

City Council May Investigate the Charge That It Has Been Imposed Upon by Bogus Bid.

That no meeting of the city council was held last evening was said by several of the members to be due to the apprehension of the friends of the plan to sell the ground adjoining the Eighth ward meeting house to the Relief society for \$1,500, that they lacked enough votes to override the mayor's veto.

More than a quorum of the council was present when the meeting convened in the session room of the board of education, in which had been arranged ample seats and a new supply of pens, ink and other paraphernalia necessary, according to tradition, for a councilman's use.

Councilman Fernstrom's motion to forego the meeting was carried without serious objection, and when it was all over, the members who were not let into the secret wondered what the reason was for the disinclination to hold a meeting. Finally it was told that the councilman who had proposed the sale of the land next to the meeting house had a price offered to be half its present reasonable market value. It was said that Councilman Fernstrom had consented to vote with the majority to make ten votes enough to negative the veto, but only eight of the required number were present.

It was stated on the other hand, however, that the veto would surely prevail when it came to a test vote at the next meeting.

It was on the cards last evening to spring a sensation by throwing out the charge that Joseph Smith, the sheepman, is not the one who made a written offer to pay \$3,000 for the city's lot, and that the proposition was made by a sheepman at the instigation of a councilman who has opposed the sale at half price.

Mr. Smith, the wool grower, is quite positive that he never made the offer, and there is no other Joseph Smith, so far as known, who is in a position to pay \$3,000 for the property. Several members of the council are positive that it was stated at the council meeting that it was the sheep grower that made the offer, but no one recollects who made the statement. Mr. Smith's denial is accepted as conclusive, and it is stated that an investigation will be set on foot to ascertain whether the council has been imposed upon by a fictitious offer.

City Recorder Nyström sent an acknowledgment of Mr. Smith's letter to the address of the office to inquire if the council would require him to pay a deposit to make good his offer, stating that he was prepared to pay any such deposit.

Among the matters that would have received attention if a meeting had been held last evening was a petition from a majority of the city of Portland, Ore., to play for the Park team. Yesterday Earl Riebel stated that this McCausland had signed a contract to play ball for his all-star team. Chippenger has not heard of the contract, but will probably flash a telegram today, showing that McCausland is already on the way to play with him. The Park team is a state league having iron clad rules governing this kind of a case is now apparent and the first one is formed the better for all concerned.

SALT LAKE BEACH ELECTION

NO MANAGER SELECTED AT YESTERDAY'S MEETING.

N. W. Clayton Dropped from List of Directors—List of Officers and Directors.

The selection of a manager for Salt Lake beach to succeed C. W. Miller was not made at the meeting of the stockholders of the resort yesterday forenoon, nor was any business of importance transacted other than the election of a board of directors for the ensuing term. The matter was not even touched upon, according to the report authorized by the secretary. It is understood that President Snow will call a meeting at some future date at which the question of a new manager will come up for consideration.

The Salt Lake & Los Angeles Railroad company and the Saltair Beach company both held their annual meetings at the president's office, the stock of both companies being held virtually by the same parties.

The only change made in the composition of either board was the substitution of L. John Nuttall as a director of the beach company for the name of N. W. Clayton. The rosters are now as follows:

Salt Lake & Los Angeles Railroad company—President, Lorenzo Snow; vice president, George C. Cannon; secretary and treasurer, William McMillan; Joseph F. Smith, James Jack and L. John Nuttall, all named being directors.

Saltair Beach company—President, Lorenzo Snow; vice president, Joseph F. Smith; secretary and treasurer, William McMillan; James Jack, John Henry Smith, Arthur H. Lund, L. John Nuttall, John R. Winder, all named being directors.

Each director of the beach company at the close of the meeting that while the question had not arisen during the meeting, there was no doubt that the sale of liquor at Saltair would not be tolerated the coming season. The bar will be closed tight and all liquor privileges revoked.

Railroad Notes.
A freight car jumped the track at a point about one mile east of the Half-Way house on the Park City branch of the Rio Grande Western yesterday afternoon, blocking the passenger train to arrive here at 6:30 last evening. The train was delayed about four hours.

The Rio Grande Western brought in another party of colonists yesterday, numbering about 400. They are for the greater part from Missouri river points and a great majority of them stay in Utah after arriving here. The homeseekers' excursions are becoming very popular.

S. W. Eccles will visit Salt Lake the early part of next week, the main object of his return being to see his family, who remained in Salt Lake when the general traffic manager left for New York. Mr. Eccles will probably take occasion to visit the Bear river hunting grounds while here.

S. A. Hutchinson, excursion agent for the Overland route, with headquarters at Eoston, was a Salt Lake visitor yesterday. Mr. Hutchinson states that the prospect is splendid for a big tourist business the coming season. The Yellowstone park is the objective point of thousands of trans-continental travelers.

A. R. Randolph was yesterday elevated to the position of claim agent for the Oregon Short Line railroad, the appointment being made by Assistant General Freight Agent Reeves. Mr. Randolph is an old-time employee of the Union Pacific system and has been in the claim department for several years. He is recognized as a thoroughly reliable and capable office man. The position is the one left vacant by the resignation of John Burleigh.

Couldn't help getting a cold never cures it, but carrying home a bottle of BALLARD'S HOREHOUND SYRUP, and using it is directed, will cure the worst kind of cough or cold. Price, 25 cents. Sold by J. W. Lyle's Drug Store, cor. Main and 3d South.
